

Join us for our Uncrewed Aircraft Systems for Disaster Management course and learn about UAS use in disaster management, from mitigation and preparedness to response and recovery. Gain a basic understanding of UAS; learn the general concepts to build a successful UAS program; understand the FAA regulations of UAS and application process; learn the importance of engaging the local community; understand the need to ensure that privacy issues, civil rights, and civil liberties are thoroughly addressed; identify when UAS would enhance a disaster mission; and understand the basics of UAS types and sensors. Gain a basic overview of UAS and learn the first steps in determining if UAS is right for you.
