**Course Description:** This “Free” course provides training for local communities to prepare for and manage the Mass Care and Emergency Assistance function effectively. The goal is to prepare community agencies, organizations, and businesses to work in coordination with Emergency Management and traditional Mass Care providers to plan for and provide Mass Care/ Emergency Assistance (MC/EA) services to those affected by disaster. It is designed to develop foundational knowledge of Mass Care and Emergency Assistance services in the community. It is not a “how to” for sheltering. Participants will use this information to build community emergency “Action Items” and to identify gaps in the community’s program.
