CRITICAL INFRASTRUCTURE RESILIENCE & COMMUNITY LIFELINES

MGT-414

In this course, participants will learn how to develop a roadmap for progress toward the National Preparedness Goal by facilitating the development of resilience considerations and involving essential community critical infrastructure partners. Participants will learn how to formulate considerations for the resilience of community assets that leverage cross-sector partnerships. These considerations enhance the whole community's ability to manage the risk associated with critical infrastructure protection efforts. During this course, participants will have an opportunity to practice the practical skills necessary to formulate considerations in the local community.

Individuals completing this course in combination with MGT310, MGT315, and AWR213, are awarded the TEEX Infrastructure Protection Certificate.

Course Topics

- Understanding your community
- Understanding community lifelines
- Concepts of resilience
- Assessing and analyzing risk
- Senior leaders brief

Certificate Requirements

AWR-213 CI Key Resources Awareness

MGT-310 Threat & Hazard. Identification

MGT-315 Critical Asset Risk Management
